After threatening of carrying out the military plan of the "Out-flowing River", something that will be way beyond the geographical boundaries of the ongoing battlefield

## The Amir of the Supporters of *Shari'ah* grants Sana'a's government a respite of 10 days to withdraw its brigades out of the outskirts of Zinjibaar

Hamza Az-Zinjibaary (Jalal Bal'aeed) - The Amir of *ash-Shari'ah* Supporters in Abyan - has threatened Sana'a's government of carrying out the military operation of the "Out-flowing River" if it doesn't respond to the mujahideen's demand by means of withdrawing its brigades from the outskirts of Zinjibaar and by allowing the displaced people to return to their homes.

Bal'aeed highlighted that the Supporters of *Shari'ah* are fully prepared to engage in a fierce war for their belief that defending the Muslims' honor and properties is engaging in a legitimate struggle for the sake of Allah in the face of the violations of Sana'a's government. Sana'a's officials have declared last week that they are granting the Supporters of *Shari'ah* a respite of one week to completely withdraw their fighters from the state of Abyan before militarily moving against them. Hamza Indicated that the military operation of the "Out-flowing River" comes in the framework of the legitimate defense against the anticipated outrageous military expedition of Sana'a's government. He added by saying that this operation will be of a different type than the usual military operations of *ash-Shari'ah* Supporters in terms of the expansion of its geographical scope as well as delivering the battle to the heart of the enemy's territories. He explained: "We will penetrate deep into the enemy's ranks; targeting their prominent leaders and destroying all of its effective interests. In addition to targeting anyone who participates in the war against the mujahideen.

It is worth mentioning that these threats came after the Supporters of *Shari'ah* had presented the displaced people of Zinjibaar with aids as they returned to their homes. Nevertheless, Sana'a's governmental forces immediately bombarded their city, forcing them once again to be homeless and to leave back to Aden where they suffer tragic living conditions due to the persistence of Sana'a's government to use the displaced people as a pressuring card to force the Supporters of *Shari'ah* into a difficult position.

Following few days of targeting the presidential palace in al-Mukalla

## The mujahideen from al Qaeda kill an American staff officer in Aden and the Pentagon acknowledges the targeting

Al Qaeda in the Arabian Peninsula have confirmed that its mujahideen have succeeded in killing a high-ranked American officer who used to work for the Counter Terrorism Unit while showing up in Aden.

A statement released by the organization had stated: "Allah bestowed upon the mujahideen - on Thursday 01/03/2012 - an opportunity to kill a high-ranked American officer working for the Counter Terrorism Unit, after being under surveillance for a long period of time. This targeting comes after the increasing American activities inside Yemen within the new political circumstances as well as bringing a considerable number of American soldiers to Aden in particular."

The mujahideen in the Arabian Peninsula called upon the people of Yemen to wage jihad against the Americans, as far as the statement have reported: "The Crusader enemy has sat its foot on your land, has killed your sons, has empowered their puppets to rule your country and has stolen your resources. Hence, we urge you to wage jihad against the Americans and their hireling agents, and act upon the fatwa of the scholars of Yemen which states the obligation of fighting the American occupiers."

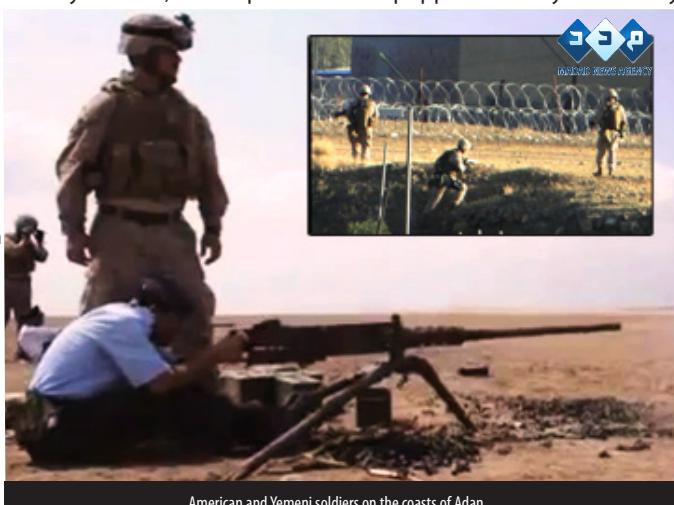

The American Ministry of Defense had acknowledged on its part the

targeting of a team of its operators but as usual denied any killing.

It is worth mentioning that this operation comes 5 days after the martyrdom operation which was adopted by al Qaeda in the Arabian Peninsula. The operation which was executed in al-Mukalla, the capital of Hadhramaut targeted the presidential palace. The explosion resulted in the killing and the injuring of more than 80 among the forces of the Republican Guards.

Madad had exclusively published some photos that show

American soldiers while walking about in the surroundings of the Sheraton's hotel in Sana'a. Madad had also published recently pictures that were uploaded online by some mujahideen

American and Yemeni soldiers on the coasts of Aden

In his new audio message: "And do not incline toward those who do wrong"

## Shaykh Saeed ash-Shihry call upon the sons of the land of *Haramain* to confront the Crusader and *Rafidi* danger upon the land

Shaykh Abu Sufyan - Sa'iid ash-Shihry - the deputy Amir of al Qaeda in the Arabian Peninsula - warned of the *Rafidi* and Crusader danger on *ahl as-Sunnah* in general and particularly on the Land of *Haramain* - the land of the two sanctuaries, Makkah and Madinah – specifically at a time it's under the sponsorship of al-Saud and their scholars who attack the mujahideen and belittle them while overlooking in their official media the polytheist *Rafidah* who reside in the eastern part of the country.

### Plotting against the Muslims' stronghold

Ash-Shihry accused both the Jews and the Crusader West from one side and the Iranian shiites of plotting against the Muslims' stronghold in the land of *Haramain*. The latter accusation came in view of the fact that Iran has started mobilizing its followers in their highly populated areas as observed in al-Qateef's province. The eastern province witnessed lately armed attacks on police patrols designed to keep the government of al-Saud busy internally and then learn their tactical reactions to that. He added: "The bizarre thing is that we haven't seen from the government or their scholars any action like those taken against the mujahideen among *ahl as-Sunnah*. Their official media is quiet and doesn't reveal the facts about the *Rafidah* and their deeds. The King's scholars and his *Shyookh* aren't even talking about al-Qateef's events and aren't explaining the danger of the *Rafidah* on *ahl as-Sunnah* in the land of *Haramain*. So in the king's religion, are the mujahideen of *ahl as-Sunnah* more evil than the polytheist *Rafidah*?

Shaykh Abdullah bin Jibreel -may Allah have mercy on him- and others among those associated with the Islamic knowledge in

Shaykh Abu Sufyan al-Azadi - Saeed Ash-Shihry (may Allah protect him)

the land of *Haramain* have already given a fatwa concerning the disbelief of the *Rafidah* in the land of *Haramain* because the call of *Tawhid* has come to their knowledge and the *da'awah* reached them. So the obligation with that regard that they (the *Rafidah*) should be killed in accordance with the Prophet's saying ﷺ: "Whoever (a Muslim) changes his religion, kill him".

### The creed of sword and the government of apostasy

Abu Sufyan made clear that the only solution to regain honor and safety in the land of *Haramain* is through the creed of *walâ' and barâ'ah* (loyalty and disassociation) and that of the sword. That begins by fearing Allah and setting right one's soul. Then, the reformation of one's creed on those ruling the land of *Haramain*, al-Saud who should be rejected and revolted against by *ahl as-Sunnah* because they are a government of apostasy who have left out the fold of Islam through many ways. He added: "We have to get together with the truthful scholars who declare the truth and do not

fear in Allah's cause the blame of a critic, it's upon the military commanders who really fear for the Muslims and for their honor to join the truthful scholars and be for them as a support after Allah through training and preparing *ahl as-Sunnah* in the land of *Haramain* for jihad in Allah's cause." Abu Sufyan asserted that safety from these trials is obtained through rushing to perform good deeds, and the greatest reason which preserves the societies' safety and stability is commanding the good and forbidding the evil. On the contrary, the greatest reason for the destruction of a society is the spreading of evil without disproving it. Shaykh abu Sufyan called in his message upon the noble tribes of Ghamid, Zahran, Harb, the families of al-Yahya, al-Qusayr, as-Samakry and others who have their honor (daughters, sisters, mothers) in the prisons of al-Saud to rescue their honor and seek martyrdom through coming to their honor's aid because in doing that dignity and honor in this world and the Hereafter.

### O Knights! Take up your arms!

Shaykh abu Sufyan concluded his message by saying: "I am requesting and calling upon all of the men of Islam in the Arabian Peninsula to be on the alert and hasten to Yemen's front to defend the sanctuary of the *Shari'ah* of the Lord of the worlds which America, its scums from the previous regime and some parties who are localized behind parapets outside the American embassy had declared war on in Aden-Abyan. And here it is Iran today, mobilizing its followers in the region from Bahrain to Syria and from al-Qateef to Sa'adah to wage war on Islam and its people. So, o knights! Take up your arms!".

Aimed at preventing any religious breaches in schools

## The Educational Committee of the Supporters of *Shari'ah* works out a set of criteria for developing the educational process in Abyan

The Educational Committee of the Supporters of *Shari'ah* in the Islamic *wilaya* of Abyan had sat up a new system of regulations which aims at enhancing the educational process in the state's schools. The system is designed to purify the curriculum from any religious breaches that may contain.

An executive of the committee emphasized in a meeting with all the principals of schools, that the religion of Islam urges its followers to learn both religious and worldly knowledge and incites its followers to take by the reasons of attaining honor and strength to achieve superiority for the Muslims. He made clear that the previous secular mode of teaching is considered one of plenty of reasons for Islam's decline and its remaining behind from its role of leading the world throughout the ages. He then demanded the return of applying the Islamic method in teaching after Allah has bestowed His blessings upon the Muslims in Abyan and now there exists an Islamic structure that gives within its

protection a practical effect to His *Shari'ah*. The executive put forward during that meeting the most important measures, like banning the mixing of boys and girls in schools, banning the greeting to the national anthem and the republican salutation while in the morning queue. He elaborated by saying that this banning comes in view of the fact that the two cause the students' loyalty to be to the country and not to the religion [Islam].

Classroom in Waqaar - Abyan

He also discussed with the principals the mechanism of dealing with problems that might occur between members of the teaching staff or between students themselves, stressing simultaneously that the role of the Educational Committee of the Supporters of *Shari'ah* is restricted to supervision and legitimate directing. In addition to its interest of bringing back the teachers' prestige which was lost during the time of the previous regime.

The executive of the Supporters of *Shari'ah* finally asked all of the schools' principals to cooperate with the Supporters of *Shari'ah* in building the strong Islamic character that is based on glorifying the Holy Qur'an and the noble prophetic *Sunnah* and standing up for them in each time or place. He finally pointed out that they will find - by God's will - assistance and help from the Supporters of *Shari'ah* considering that the Supporters of *Shari'ah* regard them as their brothers and sons of the Muslims in the Islamic *wilaya* of Abyan.
